### ABOUT ME

Hello,  
My name is Uros Vladimirov, and I come from Belgrade.  
I am a third-year student at the College of Information and Communication Technologies, majoring in Web Programming. I initially graduated from high school without a clear direction, but during that time, I realized my passion for programming. The rest is history! :D  
Primarily, I consider myself adaptable to new environments and thoroughly enjoy collaborating with others. I believe that soft skills are as crucial as technical knowledge. I'm not just building applications; I'm building connections and fostering a community of innovation.
